

NA Interim Report Annex 1

NA Operational Objective Indicator

Data Source as per WP Annex 5

Target as per WP 2016
Current target percentage
status as at Interim report

NA Comments

In this section the NA is invited to include measures taken and justification where targets are not reached or it is estimated that they will not be reached by the end of the year. In such a situation the NA should also indicate suitable mitigations that can be put into effect.

The NA is also requested to comment in case of achievement or over achievement of the target. This is important so that we can assess a suitable increase for future years or apply the same methodology in other section where the targets are not being reached. It is important that this text below is frank and clear so that the NAU has a clear picture and will be in a better position to provide advice and recommendations in the upcoming Work Programme.
