

Project idea database guidelines

1. First one has to register to *Join our community*. This can be done by clicking on **register** which can be found on the right hand side of the Interreg Europe website <http://www.interregeurope.eu/>

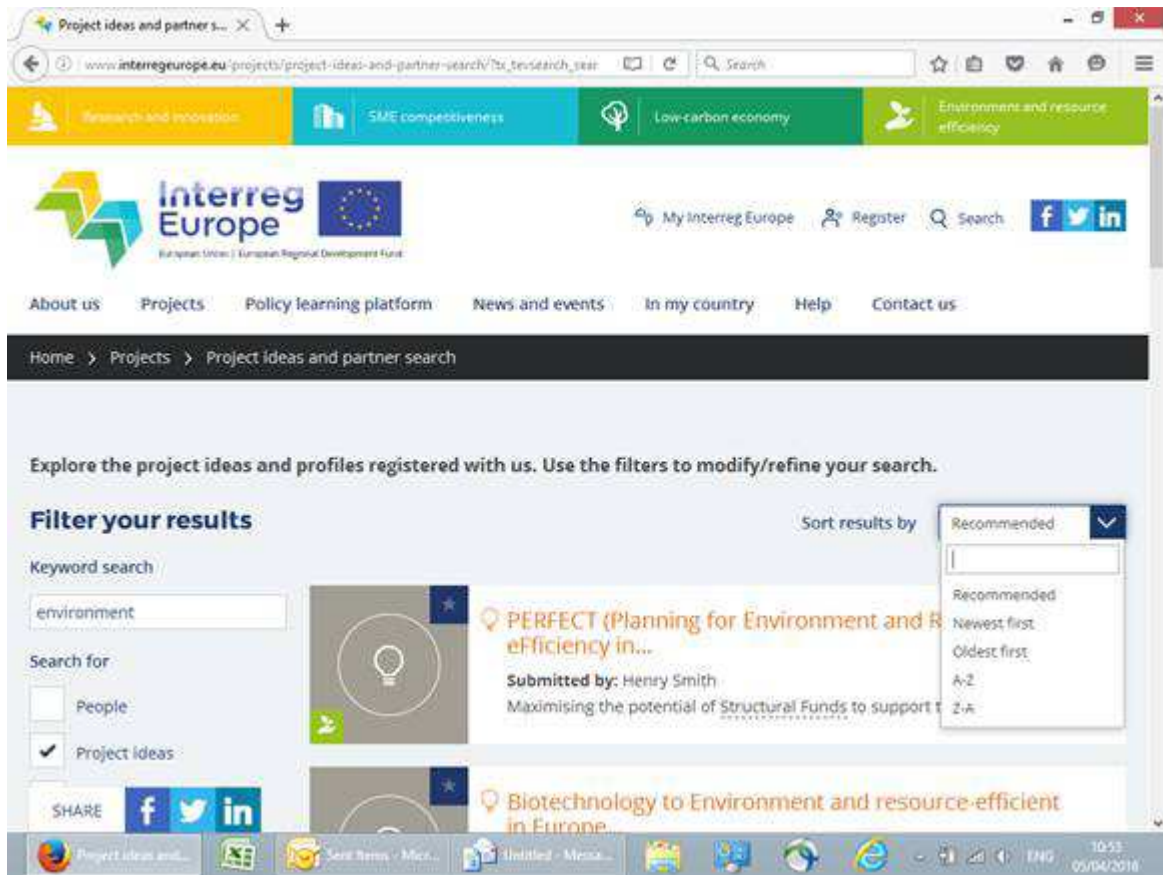

2. Once registered click on **Projects** and then click on **Project ideas and partner search**. Print screens indicated below:

3. Once you are on this screen, type your area of interest in the **Keyword search** area, choose **project ideas** under the category search for and then click **search**. Following these steps all project ideas on your particular area of interest will appear on the screen. The database also allows filtering of results either by Recommended, Newest First, A-Z etc.

Please refer to print screen below.

4. Then one has to select the projects on his/her area of interest and contact the project idea leader by sending an e-mail directly from the contact details which can be found on the project idea database.
