

DECISION No 575/2007/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
of 23 May 2007

establishing the European Return Fund for the period 2008 to 2013 as part of the General Programme 'Solidarity and Management of Migration Flows'

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Articles 63(2)(b) and 63(3)(b) thereof,

Having regard to the proposal from the Commission,

Having regard to the Opinion of the European Economic and Social Committee ⁽¹⁾,

Having regard to the Opinion of the Committee of the Regions ⁽²⁾,

Acting in accordance with the procedure laid down in Article 251 of the Treaty ⁽³⁾,

Whereas:

- (1) With a view to the progressive establishment of an area of freedom, security and justice, the Treaty provides both for the adoption of measures aimed at ensuring the free movement of persons, in conjunction with accompanying measures relating to external border controls, asylum and immigration, and for the adoption of measures relating to asylum, immigration and the safeguarding of the rights of third-country nationals.
- (2) The European Council, at its meeting in Tampere on 15 and 16 October 1999, reaffirmed its resolve to create an area of freedom, security and justice. For that purpose, a common European policy on asylum and migration should aim both at the fair treatment of third-country nationals and the better management of migration flows.
- (3) An effective Community return policy is a necessary complement to a credible legal immigration and asylum policy as well as an important component in the fight against illegal immigration. Considerable budgets are earmarked by Member States with a view to implementing return programmes and forced return operations. Common action of the European Union in this field, backed with appropriate financial means from the Community, could support Member States, underline the necessity of the return of illegal residents and contribute to enhanced solidarity among Member States.
- (4) On 28 February 2002, the Council adopted the Comprehensive Plan to combat illegal immigration and trafficking of human beings in the European Union ⁽⁴⁾ in which it

stressed that re-admission and return policy constitutes an integral and vital component in the fight against illegal immigration and identified two elements on which a Community return policy should be based, namely common principles and common measures, within the framework of improving administrative cooperation between Member States.

- (5) The Council's Return Action Programme of 28 November 2002, based on the Commission's Communication of 14 October 2002 on a Community return policy on illegal residents, addresses the entire chain of action with respect to return management in Member States, covering both forced and voluntary return of third-country nationals as well as the central stages of return, including preparation and follow-up.
- (6) The European Council, at its meeting in Thessaloniki on 19 and 20 June 2003, called on the Commission to examine all aspects relating to a separate Community instrument on return in order to support, in particular the priorities as set out in the Return Action Programme.
- (7) The Council Conclusions on the priorities for the successful development of a common re-admission policy of 2 November 2004 emphasise that Community re-admission agreements make an important contribution to an effective joint migration management and play a valuable role in the fight against illegal immigration. They are an important element in the framework of the dialogue and cooperation between the European Union and the countries of origin, former residence and transit of illegal immigrants.
- (8) Following the Conclusions of 8 June 2004 in which the Council called on the budgetary authority to make preparatory actions available and invited the Commission to take into account its view on the development of integrated return plans in close cooperation with Member States, preparatory actions were initiated for the period 2005 and 2006.
- (9) The European Council, at its meeting in Brussels on 4 and 5 November 2004, called in 'The Hague Programme' for launching the preparatory phase of a European Return Fund (hereinafter referred to as 'the Fund') and the establishment of the Fund by 2007, taking into account the evaluation of the preparatory phase.

- (10) In November 2004 the Council took note of the Presidency's report on an analysis of reported best practices of return to specific countries. The report stated ample possibilities and a need for more practical cooperation between Member States in the practice of return. The report indicated possibilities for a more integrated approach, on both national and Community level, of return policy as well as general policies. Also, the report identified best practices by Member States regarding the voluntary or forced return of third-country nationals to their country of origin or transit, such as the promotion of Assisted Voluntary Return Programmes for sustainable return, return counselling, and the organisation of joint return operations, including charter flights.
- (11) It is necessary to endow the Community with an instrument designed to support and encourage the efforts made by the Member States to improve the management of return in all its dimensions, on the basis of the principle of integrated return management, and with a view to supporting a fair and effective implementation of common standards on return, as established under Community legislation on return.
- (12) No funding should be provided for in 2007 under this Decision, in order to be able to take into account the results of preparatory actions on return in 2005 and 2006, on the basis of a report by the Commission on the evaluation of the preparatory actions.
- (13) The common standards concerned are in particular Council Directive 2001/40/EC of 28 May 2001 on the mutual recognition of decisions on the expulsion of third-country nationals ⁽¹⁾ and its corollary, Council Decision 2004/191/EC of 23 February 2004 setting out the criteria and practical arrangements for the compensation of the financial imbalances resulting from the application of Directive 2001/40/EC on the mutual recognition of decisions on expulsion of third-country nationals ⁽²⁾, and Council Decision 2004/573/EC of 29 April 2004 on the organisation of joint flights for removals from the territory of two or more Member States, of third-country nationals who are subjects of individual removal orders ⁽³⁾.
- (14) This concerns also future Community instruments, such as an instrument on common standards on procedures in Member States for returning illegally staying third-country nationals, which should create a level playing field in the European Union on return procedures and would therefore define conditions for and the margin within which Member States take return measures.
- (15) Member States should ensure that actions under the Fund respect the obligations derived from fundamental rights, laid down in particular in the European Convention for the Protection of Human Rights and Fundamental Freedoms (the European Convention on Human Rights), the Charter of Fundamental Rights of the European Union, the Geneva Convention relating to the Status of Refugees of 28 July 1951 as supplemented by the New York Protocol of 31 January 1967, and other relevant international instruments, such as the 1989 United Nations Convention on the Rights of the Child, where applicable.
- (16) Bearing in mind that collective expulsion is prohibited under Protocol 4 to the European Convention on Human Rights, only persons who are the subject of individual removal orders should be returned via joint return operations eligible for funding under this Decision.
- (17) In the light of the scope and the purpose of the Fund, it should not, in any event, support actions with respect to areas and centres for holding persons in third countries.
- (18) As stated in the Return Action Programme, approved by the Council on 28 November 2002, and constantly reaffirmed in the European Union instruments in this area, such as in particular the Council Conclusions on voluntary return of 2 November 2005, voluntary return is an important component of a balanced, effective and sustainable approach to the return.
- (19) Eligible actions within the scope of the integrated management of return should take account of the specific situation of vulnerable persons.
- (20) To enhance efficiency in return management at national level, the Fund should also cover actions relating to voluntary return of persons who are not under an obligation to leave the territory, such as applicants for asylum who have not yet received a negative decision, or persons enjoying a form of international protection within the meaning of Council Directive 2004/83/EC of 29 April 2004 on minimum standards for the qualification and status of third-country nationals or stateless persons as refugees or as persons who otherwise need international protection and the content of the protection granted ⁽⁴⁾, or persons enjoying temporary protection within the meaning of Council Directive 2001/55/EC of 20 July 2001 on minimum standards for giving temporary protection in the event of a mass influx of displaced persons and on measures promoting a balance of efforts between Member States in receiving such persons and bearing the consequences thereof ⁽⁵⁾.
- (21) A primary objective of this Decision should be the promotion of integrated return management at national level. Member States are encouraged to implement return operations in the light of integrated return action plans, which analyse the situation in the Member State with

respect to the targeted population, set targets with respect to the operations envisaged and, in cooperation with relevant stakeholders, such as United Nations High Commissioner for Refugees (UNHCR) and the International Organisation for Migration (IOM), offer return schemes focusing on effective and sustainable returns through various measures. Where appropriate, integrated return plans should be regularly assessed and adjusted.

- (22) To promote the voluntary return of persons, in particular persons who are under no obligation to leave the territory, provision should be made for incentives for such returnees, such as preferential treatment by providing enhanced return assistance. This kind of voluntary return is both in the interests of a dignified return of returnees, as well as of the authorities in terms of cost-effectiveness. Member States should be encouraged to give preference to voluntary return.
- (23) However, from a policy point of view, voluntary and enforced return are interlinked and have a mutually reinforcing effect and Member States should be encouraged in their return management to reinforce the complementarity of the two forms. There is an obvious need to carry out forced returns in order to safeguard the integrity of the immigration and asylum policy of the European Union and the immigration and asylum systems of the Member States. Thus the possibility of forced return is a prerequisite for ensuring that this policy is not undermined and for enforcing the rule of law, which itself is essential to the creation of an area of freedom, security and justice. This Decision should therefore support actions of Member States to facilitate enforced return.
- (24) Moreover, the major obstacles experienced by Member States in the field of return often occur in relation to forced returns. One important obstacle is uncertainty concerning the identity of the person concerned and/or his or her lack of the necessary travel documents. In order to overcome such problems, Member States should be encouraged to improve the cooperation with consular services of third countries and to increase the exchange of information and operational cooperation among themselves as regards the cooperation with such services.
- (25) It is also imperative for this Decision to support, in those Member States which consider it appropriate, specific measures for returnees in the country of return in order first to ensure effective return to their town or region of origin under good conditions and second to enhance their durable reintegration in their community. Such measures should not consist of assistance to the third country as such and should only be eligible for funding when and insofar as there is a necessary continuation with activities initiated and in the main carried out in the territory of the Member States under an integrated return plan.
- (26) Moreover, those measures should be in synergy with the actions supported by the Community instruments on external assistance, in particular the thematic programme on asylum and migration.
- (27) This Decision is designed to form part of a coherent framework which also includes Decision No 573/2007/EC of the European Parliament and of the Council of 23 May 2007 establishing the European Refugee Fund for the period 2008 to 2013 as part of the General programme 'Solidarity and Management of Migration Flows' ⁽¹⁾, Decision No 574/2007/EC of the European Parliament and of the Council of 23 May 2007 establishing the External Borders Fund for the period 2007 to 2013 as part of the General programme 'Solidarity and Management of Migration Flows' ⁽²⁾ and Council Decision 2007/.../EC of ... establishing the European Fund for the Integration of Third-country Nationals for the period 2007 to 2013 as part of the General programme 'Solidarity and Management of Migration Flows' ⁽³⁾, which aims to address the issue of fairly sharing responsibilities between Member States as concerns the financial burden arising from the introduction of integrated management of the European Union's external borders and from the implementation of common policies on asylum and immigration, as developed in accordance with Title IV of Part Three of the Treaty.
- (28) The European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, established in accordance with Council Regulation (EC) No 2007/2004 ⁽⁴⁾ (hereinafter referred to as 'the Agency'), has as one of its tasks to provide the necessary assistance for organising joint return operations by Member States and identify best practices on the acquisition of travel documents and the removal of third-country nationals illegally present in the territories of the Member States. Accordingly, the Agency should ensure that the conditions for an effective coordinated return effort between Member States are met, whilst leaving the implementation and organisation of the joint return operations to the competent national services. Therefore, the Agency should be able to use resources made available by Community actions in this Decision.
- (29) The support provided by the Fund would be more efficient and better targeted if co-financing of eligible actions were based on strategic multiannual programming, drawn up by each Member State in dialogue with the Commission.
- (30) On the basis of strategic guidelines adopted by the Commission, each Member State should prepare a multi-annual programming document taking into account its specific situation and needs and setting out its development strategy that should constitute the framework for the implementation of the actions to be listed in the annual programmes.

- (31) In the context of shared management as referred to in Article 53(1)(b) of Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽¹⁾ (hereinafter referred to as 'the Financial Regulation'), the conditions allowing the Commission to exercise its responsibilities for implementation of the general budget of the European Union should be specified and the obligations for the cooperation of the Member States clarified. Applying those conditions would enable the Commission to satisfy itself that Member States are using the Fund in a lawful and correct manner and in accordance with the principle of sound financial management within the meaning of Articles 27 and 48(2) of the Financial Regulation.
- (32) The Commission should establish the indicative breakdown of available commitment appropriations using an objective and transparent method.
- (33) Member States should adopt adequate measures to guarantee the proper functioning of the management and control system and the quality of implementation. To this end, it is necessary to establish general principles and necessary functions which all programmes should fulfil.
- (34) In accordance with the principles of subsidiarity and proportionality, Member States should have the primary responsibility for the implementation and control of the interventions of the Fund.
- (35) The obligations on the Member States as regards management and control systems, the certification of expenditure, and the prevention, detection and correction of irregularities and infringements of Community law should be specified in order to guarantee the efficient and correct implementation of their multiannual and annual programmes. In particular, as far as management and control are concerned, it is necessary to establish the arrangements by which Member States ensure that the relevant systems are in place and function satisfactorily.
- (36) Without prejudice to the Commission's powers as regards financial control, cooperation between the Member States and the Commission in this field should be encouraged.
- (37) The effectiveness and impact of actions supported by the Fund also depend on their evaluation and the dissemination of their results. The responsibilities of the Member States and the Commission in this regard, and arrangements to ensure the reliability of evaluation and the quality of the related information, should be formalised.
- (38) Actions should be evaluated with a view to a mid-term review and impact assessment, and the evaluation process should be incorporated into project monitoring arrangements.
- (39) Bearing in mind the importance of visibility of Community funding, the Commission should provide guidance facilitating the proper acknowledgement of the support received by any authority, non-governmental organisation, international organisation or other entity receiving a grant under this Fund, taking into account the practice with respect to other instruments under shared management, such as the Structural Funds.
- (40) This Decision establishes a financial envelope for the entire duration of the programme, which constitutes the prime reference for the budgetary authority during the annual budgetary procedure, within the meaning of point 37 of the Interinstitutional Agreement of 17 May 2006 between the European Parliament, the Council and the Commission on budgetary discipline and sound financial management ⁽²⁾.
- (41) Since the objective of this Decision, namely to promote the return of illegally staying third-country nationals within the framework of common standards and the principle of integrated return management, cannot be sufficiently achieved by the Member States and can therefore by reason of the scale and effects of the action be better achieved at Community level, the Community may adopt measures in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Decision does not go beyond what is necessary in order to achieve this objective.
- (42) The measures necessary for the implementation of this Decision should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission ⁽³⁾.
- (43) Since the measure of this Decision relating to the adoption of strategic guidelines is of general scope and is designed to amend non-essential elements of this Decision, inter alia by deleting some of those elements or by supplementing this Decision by the addition of new non-essential elements, it should be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC. On grounds of efficiency, the normal time-limits for the regulatory procedure with scrutiny should be curtailed for the adoption of the strategic guidelines.
- (44) In accordance with Articles 1 and 2 of the Protocol on the position of Denmark, annexed to the Treaty on European Union and the Treaty establishing the European Community, Denmark does not take part in the adoption of this Decision and is not bound by it or subject to its application.
- (45) In accordance with Article 3 of the Protocol on the position of the United Kingdom and Ireland, annexed to the Treaty

on European Union and to the Treaty establishing the European Community, Ireland has notified, by letter of 6 September 2005, its wish to take part in the adoption and application of this Decision.

- (46) In accordance with Article 3 of the Protocol on the position of the United Kingdom and Ireland, annexed to the Treaty on European Union and to the Treaty establishing the European Community, the United Kingdom has notified, by letter of 27 October 2005, its wish to take part in the adoption and application of this Decision.
- (47) In accordance with the second indent of paragraph 2 of Article 67 of the Treaty, Council Decision 2004/927/EC of 22 December 2004 providing for certain areas covered by Title IV of Part Three of the Treaty establishing the European Community to be governed by the procedure laid down in Article 251 of that Treaty⁽¹⁾ rendered the procedure referred to in Article 251 of the Treaty applicable in the areas covered by Article 62(1), (2)(a) and (3) and Articles 63(2)(b) and (3)(b) of the Treaty,

HAVE ADOPTED THIS DECISION:

Expenditure may be considered eligible for support from the Fund only if it is actually paid no earlier than 1 January of the year referred to in the financing decision approving the annual programme referred to in the third subparagraph of Article 21(5). The co-financed actions must not have been completed before the starting date for eligibility.
4. The rules governing eligibility of expenditure within the framework of implemented actions co-financed by the Fund in the Member States under Article 3 shall be adopted in accordance with the procedure referred to in Article 52(2).

Article 36

Completeness of payment to final beneficiaries

Member States shall satisfy themselves that the responsible authority ensures that the final beneficiaries receive the total amount of the contribution from public funds as quickly as possible. No amounts shall be deducted or withheld, nor shall any further specific charge or other charge with equivalent effect be levied that would reduce these amounts for the final beneficiaries, provided that the final beneficiaries meet all the requirements regarding the eligibility of actions and expenses.

Article 37

Use of the euro

1. Amounts set out in the draft multiannual and annual programmes of the Member States referred to in Articles 19 and 21 respectively, certified declarations of expenditure, requests for payments referred to in Article 27(1)(n) and expenditure mentioned in the progress report on the implementation of the annual programme referred to in Article 39(4) and the final report on the implementation of the annual programme referred to in Article 51 shall be denominated in euros.
2. Commission financing decisions approving the annual programmes of Member States referred to in the third subparagraph of Article 21(5), Commission commitments and Commission payments shall be denominated and carried out in euros.
3. Member States which have not adopted the euro as their currency on the date of the request for payment shall convert into euros the amounts of expenditure incurred in national currency. This amount shall be converted into euros using the monthly accounting exchange rate of the Commission for the month during which the expenditure was entered in the accounts

of the responsible authority of the programme concerned. This rate shall be published electronically by the Commission each month.

4. When the euro becomes the currency of a Member State, the conversion procedure set out in paragraph 3 shall continue to apply to all expenditure recorded in the accounts by the certifying authority before the date of entry into force of the fixed conversion rate between the national currency and the euro.

Article 38

Commitments

Community budgetary commitments shall be made annually on the basis of the Commission financing decision approving the annual programme referred to in the third subparagraph of Article 21(5).

Article 39

Payments — Prefinancing

1. Payments by the Commission of the contribution from the Fund shall be made in accordance with the budget commitments.
2. Payments shall take the form of pre-financing and payment of the balance. They shall be made to the responsible authority designated by the Member State.
3. A first pre-financing payment representing 50 % of the amount allocated in the financing decision approving the annual programme shall be made to the Member State within sixty days following the adoption of that decision.
4. A second pre-financing payment shall be made no more than three months after the Commission has approved, within two months of the formal submission of a request for payment by a Member State, a progress report on the implementation of the annual programme and a certified declaration of expenditure drawn up in accordance with Article 29(1)(a), and Article 35 accounting for at least 60 % of the amount of the initial payment.

The amount of the second pre-financing payment made by the Commission shall not exceed 50 % of the total amount allocated by the financing decision approving the annual programme and, in any event, where a Member State has committed nationally an amount less than the amount indicated in the financing decision approving the annual programme, the balance of the amount of Community funds actually committed by the Member State for selected projects under the annual programme minus the first pre-financing payment.

5. Any interest generated by pre-financing payments shall be posted to the annual programme concerned, being regarded as a resource for the Member State as national public contribution and shall be declared to the Commission at the time of the declaration of expenditure relating to the final report on the implementation of the annual programme concerned.
6. The amounts paid as pre-financing shall be cleared from the accounts when the annual programme is closed.

*Article 40***Payment of balance**

1. The Commission shall pay the balance provided it has received the following documents no later than nine months after the eligibility deadline for expenditure laid down in the financing decision approving the annual programme:

- (a) a certified declaration of expenditure, duly drawn up in accordance with Article 29(1)(a) and Article 35, and a request for payment of the balance or statement of reimbursement;
- (b) the final report on the implementation of the annual programme as set out in Article 51;
- (c) the annual audit report, opinion and declaration provided for in Article 30(3).

The payment of the balance shall be subject to the acceptance of the final report on the implementation of the annual programme and of the declaration assessing the validity of the request for payment of the balance.

2. If the responsible authority fails to provide the documents required in paragraph 1 by the due date and in an acceptable format, the Commission shall decommit any part of the budget commitment of the corresponding annual programme that has not been used for payment of the pre-financing.

3. The automatic cancellation procedure defined in paragraph 2 shall be suspended, for the amount of the projects concerned, where legal proceedings or administrative appeals having suspensive effects are under way at Member State level when the documents defined in paragraph 1 are submitted. The Member State shall, in the final report submitted, give detailed information on such projects, and send reports on progress made with regard to these projects every six months. Within three months of the conclusion of the legal proceedings or administrative appeal procedure, the Member State shall present the documents required in paragraph 1 for the projects concerned.

4. The nine-month period referred to in paragraph 1 shall cease to run if the Commission adopts a decision suspending payments of the co-financing for the relevant annual programme in accordance with Article 42. The period shall start to run again from the date when the Commission decision referred to in Article 40(3) has been notified to the Member State.

5. Without prejudice to Article 41, the Commission shall, within six months of receiving the documents referred to in paragraph 1 of this Article, inform the Member State of the amount of expenditure recognised by the Commission as chargeable to the Fund, and of any financial corrections deriving from the difference between declared expenditure and the expenditure recognised. The Member State shall have three months to present its comments.

6. Within three months of receiving the Member State's comments, the Commission shall decide on the amount of expenditure recognised as chargeable to the Fund, and recover

the balance arising from the difference between final recognised expenditure and the sums already paid to that Member State.

7. Subject to available funding, the Commission shall pay the balance within no more than sixty days from the date on which it accepts the documents referred to in paragraph 1. The balance of the budgetary commitment shall be decommitted within six months following the payment.

*Article 41***Withholding of payments**

1. The payment shall be withheld by the authorising officer by delegation within the meaning of the Financial Regulation for a maximum period of six months if:

- (a) in a report of a national or Community audit body there is evidence to suggest a significant deficiency in the functioning of the management and control systems;
- (b) that officer has to carry out additional verifications following information coming to his notice which alerted him that expenditure in a certified declaration of expenditure is linked to a serious irregularity which has not been corrected.

2. The Member State and the responsible authority shall be informed immediately of the reasons for the payment being withheld. The payment shall be withheld until the necessary measures are taken by the Member State.

*Article 42***Suspension of payments**

1. All or part of the pre-financing and payments of the balance may be suspended by the Commission when:

- (a) there is a serious deficiency in the management and control system of the programme which affects the reliability of the procedure for certification of payments and for which corrective measures have not been taken; or
- (b) expenditure in a certified declaration of expenditure is linked to a serious irregularity which has not been corrected; or
- (c) a Member State has not complied with its obligations under Articles 31 and 32.

2. The Commission may decide to suspend pre-financing and payments of the balance after having given the Member State the opportunity to present its observations within a period of three months.

3. The Commission shall end suspension of pre-financing and payments of the balance when it considers that the Member State has taken the necessary measures to enable the suspension to be lifted.

4. If the necessary measures are not taken by the Member State, the Commission may adopt a decision to cancel all or part of the Community contribution to the annual programme in accordance with Article 46.

*Article 43***Conservation of documents**

Without prejudice to the rules governing State aid under Article 87 of the Treaty, the responsible authority shall ensure that all the supporting documents regarding expenditure and audits on the programmes concerned are kept available for the Commission and the Court of Auditors for a period of five years following the closure of the programmes in accordance with Article 40(1).

This period shall be interrupted either in the case of legal proceedings or at the duly substantiated request of the Commission.

The documents shall be kept either in the form of the originals or in versions certified to be in conformity with the originals on commonly accepted data carriers.

CHAPTER VIII

FINANCIAL CORRECTIONS*Article 44***Financial corrections by Member States**

1. Member States shall, in the first instance, bear the responsibility for investigating irregularities, acting upon evidence of any major change affecting the nature or the conditions for the implementation or control of programmes and making the required financial corrections.

2. Member States shall make the financial corrections required in connection with the individual or systemic irregularities detected in actions or annual programmes.

Corrections made by Member States shall consist in cancelling, and if applicable, recovering all or part of the Community contribution. Where the amount is not repaid in the time allowed by the relevant Member State, default interest shall be due at the rate provided for in Article 47(2). Member States shall take into account the nature and gravity of the irregularities and the financial loss to the Fund.

3. In the event of systemic irregularities the relevant Member State shall extend its enquiries to cover all operations liable to be affected.

4. Member States shall include in the final report on the implementation of the annual programme referred to in Article 51 a list of cancellation procedures initiated for the annual programme concerned.

*Article 45***Audit of accounts and financial corrections by the Commission**

1. Without prejudice to the powers of the Court of Auditors or the checks carried out by the Member States in accordance with national laws, regulations and administrative provisions,

Commission officials or authorised Commission representatives may carry out on-the-spot checks, including sample checks, on the actions financed by the Fund and on management and control systems with a minimum of three working days' notice. The Commission shall give notice to the Member State concerned with a view to obtaining all the assistance necessary. Officials or authorised representatives of the Member State concerned may take part in such checks.

The Commission may require the Member State concerned to carry out an on-the-spot check to verify the accuracy of one or more transactions. Commission officials or authorised Commission representatives may take part in such checks.

2. If, after completing the necessary verifications, the Commission concludes that a Member State is not complying with its obligations under Article 31, it shall suspend the pre-financing or payment of the balance in accordance with Article 42.

*Article 46***Criteria for the corrections**

1. The Commission may make financial corrections by cancelling all or part of the Community contribution to an annual programme where, after carrying out the necessary examination, it concludes that:

- (a) there is a serious deficiency in the management and control system of the programme which has put at risk the Community contribution already paid to the programme;
- (b) expenditure contained in a certified declaration of expenditure is irregular and has not been corrected by the Member State prior to the opening of the correction procedure under this paragraph;
- (c) a Member State has not complied with its obligations under Article 31 prior to the opening of the correction procedure under this paragraph.

The Commission shall decide after having taken into account any comments made by the Member State.

2. The Commission shall base its financial corrections on individual cases of irregularity identified, taking account of the systemic nature of the irregularity to determine whether a flat-rate or extrapolated correction should be applied. Where the irregularity relates to a declaration of expenditure for which a reasonable assurance had previously been given by the audit authority in accordance with Article 30(3)(b), there will be a presumption of a systemic problem giving rise to the application of a flat-rate or extrapolated correction, unless the Member State can provide proof within three months to rebut this presumption.

3. The Commission shall, when deciding the amount of a correction, take account of the importance of the irregularity and the extent and financial implications of the deficiencies found in the annual programme concerned.

4. Where the Commission bases its position on the facts established by auditors other than those of its own services, it shall draw its own conclusions regarding the financial consequences, after examining the measures taken by the Member State concerned under Article 32, the reports of notified irregularities and any replies from the Member State.

Article 47

Repayment

1. Any repayment due to be made to the general budget of the European Union shall be effected before the due date indicated in the order for recovery drawn up in accordance with Article 72 of the Financial Regulation. This due date shall be the last day of the second month following the issuing of the order.

2. Any delay in effecting repayment shall give rise to interest on account of late payment, starting on the due date and ending on the date of actual payment. The rate of such interest shall be the rate applied by the European Central Bank to its principal refinancing operations, as published in the C series of the *Official Journal of the European Union*, in force on the first calendar day of the month in which the due date falls, increased by three and a half percentage points.

Article 48

Obligations of Member States
