Part 1. Details of the Fund

1.1 Background to the Fund

The Asylum, Migration and Integration Fund (AMIF) for the period between 2014 – 2020 was set up with the general objective of contributing to the efficient management of migration flows and to the implementation, strengthening and development of the common policy on asylum, subsidiary protection and temporary protection and the common immigration policy, while fully respecting the rights and principles enshrined in the Charter of Fundamental Rights of the European Union.

As outlined in Regulation (EU) No 516/2014 which establishes the Asylum, Migration and Integration Fund the Fund is meant to express solidarity through financial assistance to Member States in the fields of asylum and immigration. This in turn should enhance the effective management of migration flows to the Union in areas where the Union adds maximum value, in particular by sharing responsibility between Member States and by sharing responsibility and strengthening cooperation with third countries.

As part and parcel to the general objective outlined above, the Fund will contribute to four common specific objectives, that is the strengthening and development of all aspects of the Common European Asylum System, including its external dimension; to support legal migration to the Member States in accordance with their economic and social needs, such as labour market needs, while safeguarding the integrity of the immigration systems of Member States, and to promote the effective integration of third-country nationals; enhance fair and effective return strategies in the Member States which contribute to combating illegal immigration, with an emphasis on sustainability of return and effective readmission in the countries of origin and transit; and enhance solidarity and responsibility-sharing between the Member States, in particular towards those most affected by migration and asylum flows, through practical cooperation.

1.2 Purpose of the Fund in relation to Integration Measures

As outlined above it is therefore one of the aims of the Fund to continue to support and encourage efforts by the Member States to support consistent strategies specifically designed to promote the integration of third-country nationals at national, local and/or regional level, where appropriate. Those strategies should be implemented mainly by local or regional authorities and non-state actors, while not excluding national authorities, in particular where the specific administrative organisation of a Member State would so require, or where, in a Member State, integration actions fall within a competence shared between the State and decentralised administration. The implementing organisations should choose the measures most appropriate to their particular situation from a range of measures available.

The Fund is meant also to support legal migration to the Member States in accordance with their economic and social needs, such as labour market needs, while safeguarding the integrity of the immigration systems of Member States, and to promote the effective integration of third-country nationals.
